About Me

An Information Technology enthusiast aspiring to become a UI/UX Designer and System Developer. Interested in creating user-friendly interfaces and functional systems, with a willingness to learn new technologies, improve technical skills, and gain professional experience in the IT industry.

WORK EXPERIENCE

Green-Wifi; A Plastic Bottle Recycling Incentives with Internet Access

- Developed a system that rewards users with free Wi-Fi access in exchange for recyclable plastic bottles.
- Contributed to system design, user interface, and functionality.
- Promoted environmental sustainability and accessible internet connectivity.

Integrated Boarding House Management System

- Designed and developed a web-based system for managing tenants, rooms, and payments.
- Contributed to UI/UX design and system functionality.
- Improved the organization of boarding house records and payment tracking.

Ai-Community Complaint Management System

- Designed a system for submitting and managing community complaints.
- Contributed to UI/UX design and system development.
- Integrated AI features to assist in complaint categorization and management.

Responsive Digital Portfolio

- Designed and developed a personal portfolio website.
- Created a responsive and user-friendly interface for different devices.
- Showcased personal skills, projects, and achievements.
